Product List

Fence Tech & Garden Supply

- 3D Fence Panel
- Chain Link Fence
- 888556 Fence
- Euro Fence
- Barbed Wire
- Gabion Mesh
- Welded Wire Mesh

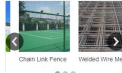

Metal Mesh

- Perforated Metal Sheet
- Ceiling Panel
- Curtain Wall Mesh

Steel Grating

- FRP Grating
- Flat Bar Grating
- Press-Lock Steel Grating
- Star Tredd
- Grip Stret
- Serrated Steel Grating

Perforated Metal Sheet

Feature: Can be readily formed. Accuracy of size. Can be painted or polished. Superior abrasion resistance. Easy installation. Attractive appearance. Wide range of thickness available. Largest selection of hole size pattern and configurations. Uniform sound absorption. Light weight. Excellent wear and durable.

Quantity:

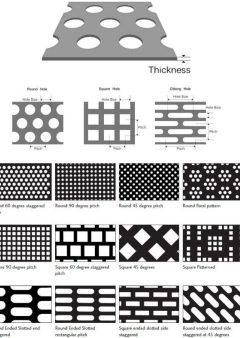

Product Description

SPECIFICATION

Material	Carbon Steel Plate, Galvanized steel Plate, Stainless Steel Plate, Aluminum Plate, etc
Thickness	0.5mm-12mm
Sheet size	1000mmx2000mm, 1000mmx2500mm, 1200mmx2400mm, 1200mmx2600mm, etc - Without treatment For carbon steel material: - Galvanized / Electric galvanized, Hot-dipped galvanized - Powder coated For aluminum material: - Anodized (color can be silver, blue, green, yellow, pink, red, black, as you like) - PTFE surface will be much more smooth, level off and glossy, it also has a much longer life span than other treatment
Surface treatment	
Hole shape	Round, Rectangular, Square, Triangle, Diamond, Hexagonal, Cross, Slotted and any other special patterns
Manufacture	CR: perforating, CR: turret perforating, Laser cutting, Water Jet cutting, CNC coil perforating, Coil to plate perforating, Rolling, etc
Application	Perforated metal mesh is widely used in chemical machinery, pharmaceutical equipment, food and beverage machines, cigarette machines, harvesters, dry-feeding machine, ironing table, ventilation equipment, refrigeration equipment, central air conditioning, powder, craft, paper making, hydraulic fittings, filtration equipment and other industries.
